

# **Label description - Appendix E**

## **Description of special requirements for Return products**

Version 004 (1/2-2020)

Final

## Return products

With the following products, Bring makes it easy for customers to offer a return service to their customers (from Denmark, Norway, Sweden and Finland).

**0331- Business Parcel Return**

**0333- Business Parcel Return Bulk**

**0341- PickUp Parcel Return**

**0343- PickUp Parcel Return Bulk**

**0348- Home Delivery Parcel Return**

Bring offers different options for the production of transport labels:

- 1) Transport label may be produced by the sender at the same time as the label for the outbound parcel. In this case the return label is forwarded in the parcel to the receiver.
- 2) Transport label may be produced by the sender and forwarded to the receiver by mail.
- 3) Labels for the return parcels may be printed by the receiver from **Mybring**. Mybring is a WEB based system with functionality to produce labels and EDI for Bring products.

Customers may have agreement for different return products per country.

## Label

In general the label is produced in the same way as the outbound label with a new package-ID from the same series as the outbound label (see examples on page 6/7).

However from ~~Sweden and~~ Finland product 0341 and 0343 requires a special local label as specified on the following pages.

In case of BulkReturn (product 0333 and 0343) and product 0341 from ~~Sweden and~~ Finland the return address (To-block on the label) must be the customer name c/o Bring with a terminal address in the sending country.

Return labels are normally valid for 3 months after printing and the "Not valid after" date must be printed on the label in To-block.

## ~~Special label requirements~~ Removed from 22/3-20

### ~~Product 0341/0343 from Sweden~~

~~A special label layout must be used for product 0341/0343 from Sweden (see example page 9).~~

~~Packages with product 0341/0343 from Sweden should in addition to the GS1 SSCC package ID barcode carry a sorting barcode.~~

- ~~• Sorting barcode~~

~~Symbology: Code 128~~

~~Contents:~~

~~–Data Identifier: 2L~~

~~–Fixed code: SE55810+02000004~~

~~X-module: min 0.375 mm~~

~~Height: min 22 mm~~

- ~~• Package ID barcode~~

~~Data identifier: GS1 Application Identifier (00) in the barcode specifies that it is a package ID.~~

~~Symbology : GS1 128 according to EAN/UCC standard (code 128 with FNC1 according to EN799)~~

~~X-dimension (most narrow module): Min. 0.375 mm~~

~~Symbol height: Min. 27 mm~~

~~Empty space before and after the barcode should be at least 7 mm~~

~~See more information about GS1 SSCC in Transport Label specification for Bring Parcels page 6.~~

- ~~• Return address (in the To: block)~~

~~*Customer name*~~

~~*c/o Bring Parcels AB*~~

~~*Bordsvägen 3*~~

~~*SE-55810 Jönköping*~~

## Product 0341/0343 from Finland

A special label layout must be used for product 0341/0343 from Finland (see example page 10).

- Product barcode:  
Symbology: Code 128  
Contents:  
    Data Identifier: 2W  
    Fixed code: 2108  
X-module: min 0.42 mm  
Height: min 12 mm
- Sorting barcode  
Symbology: Code 128  
Contents:  
    Data Identifier: 52L  
    Fixed code: 00002  
X-module: min 0.42 mm  
Height: min 20 mm
- Package-ID barcode:  
Data identifier: GS1 Application Identifier (00) in the barcode specifies that it is a package-ID.  
  
Symbology: GS1 128 according to EAN/UCC standard (code 128 with FNC1 according to EN799)  
  
X-dimension (most narrow module): Min. 0.375 mm  
  
Symbol height: Min. 27 mm  
  
Empty space before and after the barcode should be at least 7 mm  
  
See more information about GS1 SSCC in Transport Label specification for Bring Parcels page 6.
- Return address (in the To: block)  
*Customer name  
c/o Bring Parcels AB  
PL 3710  
FI-00002 Helsinki*

## Return addresses for product 0333/0343 from Sweden, Norway & Denmark

- |                       |                     |
