

APPENDIX G, MAILBOX PACKAGE

Version 001 (1/12-2017)

Final

Mailbox Package

Packages in the mailbox is a letter with maximum weight 2 kg. The delivery and processing of letter terminals are different from the submitting and processing of parcel terminals. Mailbox package is only valid from Norway to Norway.

Mailbox package must have a harmonized label, which has an EDI barcode. EDI barcode is read only when the consignment cannot be delivered in your mailbox, and will bring transmission (i.e. must be collected at the nearest Post office). If the customer wants tracking label must also have an RFID tag. Customer must have a separate RFID printers and RFID tags.

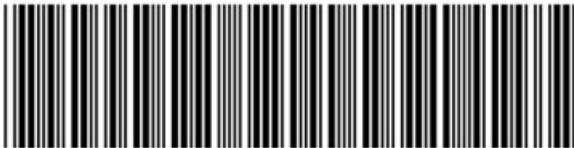

Product codes:

Code	Name	RFID
3570	Pakke i postkassen med spring (traceable)	Yes
3584	Pakke i postkassen uten spring (non traceable)	No

Please note that service code **1091- eAdvising with mobile number and/or e-mail address is mandatory** when these products above are used.

Label

Harmonized label have a minimum size 99x105mm. The label contains – from the top to the bottom and from the left to the right - a header section, a sender section, a barcode section, a transport instructions section and an addressee section. The example label shown below gives the recommended layout for the label. Requirements for the label, see **Transport Label description for Mailbox Package Label 4.16**.

FROM	00001234567 Company Address 1 Address 2 Postal code/place	
TO	Receiver Address 1 Address 2 Postal code Town/Place <div style="text-align: right;">☎ 999 99 999</div>	
  		
 *LA003755076N0*
